

Yamato is renowned for providing high quality industrial solid tyres, with over 20 years of manufacturing experience in Sri Lanka.

Yamato solid tyres are also available in a 2-layer and 3-layer construction for high shock absorption and better efficiency.

Our solid tyres are specially designed to include

- ✓ **A unique tread design for increased comfort, traction and durability**
 - ✓ **A superior compound for high dynamic stability and increased energy efficiency**
- 2-layer solid tyres are reinforced with rubber coated beads, hard rubber in the rim area and abrasion resistant rubber on tread.
 - 3-layer premium solid tyres are reinforced with rubber coated beads, hard rubber in the rim area, abrasion resistant rubber on tread and a special rubber in the middle to resist heat, which allows more flexing and improves rolling resistance.

Size	Rim	Std	Plus	Load Capacity (kg)					Nominal Dimension		
				Counterbalanced Lift Trucks up to 25km/h		Other Vehicles (Trailers)			Max Width mm. ± 2%	Overall dial mm. ± 2%	
				Load Wheel	Steering Wheel	6km/h	10km/h	25km/h
